

# **JULIO QUEVEDO**

3 Murphy's Lane Apt # 13      (203)434-4051 juliovquevedo@gmail.com

## **Education**

Computer Engineering, Spring 2018

### **University of Connecticut**

Physics, Chemistry, Calculus I

### **Norwalk Community College**

Calculus II, Introduction to C, Introduction to Java, Object Oriented Programming in Java

## **Technical Experience**

### **JColorChooser**

GUI desktop application written in Java that shows the user a color canvas. Slider and decimal input while showing the hexadecimal value of the color chosen.

### **Star Wars-themed rock, paper, scissors game**

GUI desktop application written in Java, that lets the user play rock, paper, scissors with different star wars characters. Beware, if you play against Darth Vader you may end up joining the dark side.

### **Personal Website Project**

Created a personal website listing education, work experience, family and hobbies. Written in HTML and CSS, including the Bootstrap library.

## **Work Experience**

### **Independent Software's A100 Program**

As an apprentice in the A100 Program worked on individual and group projects, learning and mastering HTML, CSS, JavaScript and the Meteor platform. Built full-stack JavaScript applications as personal projects, and for a venture company. Trained in the Agile methodology.

### **Roly Poly Sandwiches**

Owner and operator since 2002. Started working at the Westport, CT location in 1999, soon after the owner of that location offered me to be his manager for his upcoming location in Stamford. Made a counter offer: let's be partners 50/50. He happily agreed, and together we opened Shelton, CT in 2002, Fairfield, CT in 2004 and Stratford, CT in 2006. In charge of inventory, hiring, firing, and overall day-to-day operations of four locations until 2009, when we split our businesses.
